Subject: State of CA, PFAS Compliance

To Whom It May Concern,

With California's passing of Bill 1817 in 2022, textile articles, gear, and fabrics containing regulated perfluoroalkyl and polyfluoroalkyl (PFAS) will no longer be permitted to be sold in the State of California on or after January 1st, 2025.

As of the date of this letter, Apex Tactical **does not** offer any products which are controlled under California's Assembly Bill 1817 (AB-1817), and Apex does intend to comply with this regulation going forward.
